

# STRESSERASER

## **Congratulations on your decision to live stress-free!**

My name is Michael Wood. I am the Chief Science Officer of Helicor and the proud inventor of the StressEraser. I designed the StressEraser when I was suffering from excessive stress and I couldn't find a product strong enough to stop my body and mind from getting stressed. Within a month of using the StressEraser, I began to feel like my old self again. The guy I used to be before the stress started piling up.

Now that you have the StressEraser, you can soon enjoy stress-free living too. Please refer to the Quick Start Guide for simple step-by-step instructions on how to use your StressEraser. And for more detailed information, please take a look at your Owner's Manual.

For the fastest possible results, I strongly suggest you complete the 3 easy steps of the **Relaxing Nights Program™** every night before you go to sleep. Keep the **Relaxing Nights Program** card and the StressEraser in your nightstand. And bring your StressEraser along on vacation or business trips with the leather traveling case.

Don't forget to fill out the warranty card and short questionnaire to register your StressEraser. We are dedicated to helping you attain stress-free living. **For help getting started or any questions you may have, please do not hesitate to give us a call at 888.437.0700 or visit [www.StressEraser.com](http://www.StressEraser.com).**

Michael Wood, Helicor, Inc.
